

Daniel B. Fore, M.D., F.A.C.S.

Brief Bio

Dr. Daniel Fore has been in surgical practice in the Memphis area since 2006 following the completion of his residency training at Baylor University Medical Center (now Baylor Scott and White) in Dallas, Texas. He performs general and bariatric surgery, primarily with the use of the da Vinci robot. He has a particular focus on gastric sleeve, hernia repair, cholecystectomy and anti-reflux surgery. His outside interests include grilling, bird hunting, spending time with family, and church ministry.
